QUICK OVERVIEW

Turn activity into impact

A simple guide to creating a clinic activity report you can share.

What you need

Clinic name and address; start and end dates; and volunteer hours OR clinical service counts. Optional: total clinic cost for the same period.

YOUR REPORT IN SIX STEPS

1. **Begin**

   Open the tool.

2. **Enter clinic details**

   Add your clinic information and reporting dates.

3. **Choose a method**

   Select volunteer hours or clinical services.

4. **Add activity totals**

   Enter totals manually or upload a completed file.

5. **Review results**

   Check the activity and estimated value.

6. **Save your report**

   Copy the statement or download your report.

Privacy reminder

Enter totals only. Never enter patient names, medical records, or personal patient details.

STEPS 1–3

Set up your report

Start with clinic details, then select what you want to report.

1 Select Begin

Read the welcome screen, then select Begin.

2 Fill in clinic information

Clinic name	Name of your organization
Address	Street, city, state and ZIP code
Reporting dates	Start and end dates
Clinic cost (optional)	Total cost for those same dates

When finished, select Next.

3 Choose ONE calculation method

VOLUNTEER HOURS

Hours given by each role

Example: 12.5 hours

CLINICAL SERVICES

Number of each service

Example: 25 visits

Keep in mind

Choose one method per report. Switching methods after entering activity clears entries from the other method. Dates and totals should cover the same period.

STEP 4

Add your activity totals

Enter totals yourself OR upload a completed file.

OPTION A

Enter manually

1. Search for a role or service.
2. Enter its total for the period.
3. Use Add another for more rows.
4. Include each role or service once.

OPTION B

Upload a file

1. Download the CSV template and ID list.
2. Fill in the ID and total columns.
3. Upload a CSV, TXT, or XLSX file.
4. Check the preview and confirm.

Numbers to enter

Hours: use half-hour steps, such as 12 or 12.5. Services: use whole numbers, such as 25. No negative numbers. At least one entry must be greater than zero.

FILE UPLOAD CHECKLIST

Headers	Keep role_id + hours OR service_id + count.
IDs	Use IDs from the downloaded reference, not names.
Excel	Only the first worksheet is read. Do not use formulas.
Limits	Maximum file size: 5 MB. Maximum nonblank rows: 10,000.

STEPS 5–6

Review and save

Check your activity, understand the estimate, and keep a copy.

5 Select See impact summary

Check the clinic information, method, reporting dates and activity totals.

HOW THE ESTIMATE IS CALCULATED

Volunteer hours × hourly reference rate = estimated value

Service count × service reference rate = estimated value

Different roles and services use different reference rates.

The report may also show a suggested statement and a comparison with clinic cost, if supplied.

What the number means

This is an estimate for explaining the value of activity. It is not money earned, profit, confirmed savings, or a measure of quality of care.

6 Copy or download your report

COPY

Copy the impact statement.

PDF

Open the report, then Save as PDF.

EXCEL

Download the Excel workbook.

Save before leaving. Closing or refreshing the page clears your work.

QUICK REFERENCE

Fix common problems

Use this page if something is not working as expected.

Cannot move to the next step

Fill in required fields. Check the state, ZIP code and dates.

Activity total is rejected

Use half-hour steps for hours and whole numbers for services.

File upload fails

Use the correct template IDs and column names. Remove formulas.

No summary appears

Make sure at least one total is greater than zero.

PDF does not open

Allow pop-ups, then try Download PDF report again.

Excel will not download

Check your internet connection, then try again.

Page closed or refreshed

Start again using your saved records. Work is not restored.

Before sharing

Confirm your dates and totals. Review the rate sources and year. Clearly describe the result as an estimate.
